

PHILIP MORRIS U. S. A.  
INTER-OFFICE CORRESPONDENCE  
RICHMOND, VIRGINIA

To: . Dr. H. Wakeham  
From: . P. A. Eichorn  
Subject: . Cases for Foreign Patent Filing

Date: June 6, 1969

I have reviewed the attached cases with Mrs. Heatwole and Mr. Kothe, and I agree with Mrs. Heatwole's recommendations that Case #1 be filed broadly, Case #2 be filed only in countries of significant market importance, and Case #3 not be filed abroad.

By the way, Case #1 - the ions referred to are various salts, particularly potassium, as well as calcium and magnesium. Ability to optionally remove or add them may be of some consequence in the future.

Do you wish to discuss these further? If not, I will ask Mrs. Heatwole to proceed accordingly.

PAE/mcs

*Dr Eichorn*

*Mrs Heatwole*

*Cases 1 & 2*

*I think we might compromise a little on these since their applicability is questionable. Suggest we delete "export" countries in both cases and confine ourselves to licensee and subsidiary country lists*

*Case 3 OK.*
